**SECTION 1 - SERVICE CHARGES AND SURCHARGES**

**1.1 Service Order and Change Charges**

Service Order and Change Charges are one-time charges associated with a service or item of equipment which applies on a per-item basis each time the service or an item of equipment is provided and includes, but is not limited to the following:

**Service Connection Charge:** A Service Connection Charge is a one-time charge, which applies for Company work associated with activities to set up/change accounts, including, but not limited to, service order issuance, programming, billing, etc., for installations, moves, changes, or rearrangements of services and/or equipment.

**Subsequent Non-Recurring Charge:** A non-recurring charge may apply to the installation, change, or move of services, as specified in tariffs for each service or item of equipment, in addition to rates identified within this section of the tariff.

Service Connection Charges are in addition to other rates and charges normally applying under the tariffs. They apply in addition to construction charges made because of unusual costs in establishing service.

**SECTION 1 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**

**1.2 Premises Visit Charge**

Premises Visit charges apply when the installation of network access facilities or trouble resolution require a visit to the Customer's premises. This charge applies in addition to the Technician Dispatch Charge. The Customer will be advised before a visit of the possibility of a premise charge. The Customer will also be advised to check the Network Interface Device (NID) in accordance with PUCO Case No. 86-927-TP-COI. The Customer will also be advised that if a NID is not in place and the Company cannot ascertain with certainty that the service difficulty is located on the Customer's side of the demarcation point, the Company is required to come to the location at no charge to diagnose the problem and install a NID at no charge during this premises visit.

Rate Per Hour: \$75.00

**1.3 Service Restoral Charge**

A service restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section I of this Tariff.

Restoration, per line: \$29.95

**LOCAL EXCHANGE AND INTERXCHANGE SERVICE PRICE LIST**

---

**SECTION 2 – BASIC SERVICES AND RATES**

**2.1 General**

Local exchange service is offered to business and residential Customers on a presubscription basis from equal access originating end offices only. Rates for service may vary by call type and/or term commitment. Usage rates, per call charges and monthly fees may apply. In addition, applicable Service Order and other non-recurring charges may apply. Call timing is defined in the description for each service. Service is available 24 hours a day, 7 days a week. Service is available where technically feasible and where facilities permit. Spectrotel mirrors the Rate Group designations of the incumbent LEC: Ameritech - Ohio.

**2.1.1 Application of Business and Residential Rates**

- A.** The determination as to whether telephone service should be classified as Business or Residential is based on the character of the use to be made of the service. Service is classified as Business service where the use is primarily or substantially of a business, professional, institutional, or otherwise occupational nature. Where the business use, if any, is incidental and where the major use is of a personal or domestic nature at the person's dwelling, service is classified as Residential service.

**SECTION 2 – BASIC SERVICES AND RATES, (CONT'D.)**

**2.1 General (Cont'd.)**

**2.1.1 Application of Business and Residential Rates (Cont'd.)**

**B. Business rates apply at the following locations, among others:**

1. In offices, stores and factories, and in quarters occupied by clubs, lodges, fraternal societies, schools, colleges, libraries, hospitals, and other business establishments.
2. In residence locations where the place of residence is in the immediate proximity to a place of business and it is evident that the telephone in the residence is or will be used for business purposes, and in residence locations where an extension is located at a place where business rates would apply.
3. In the residence of a practicing physician, dentist, veterinary, surgeon, or other medical practitioner who has no service at business rates at another location.
4. In any residence location where there is substantial business use of the service and the customer has no service at business rates.

**C. Residence rates apply at the following locations, among others:**

1. In private residences; in the residential portion of hotels, apartment houses, boarding houses, churches, or institutions when the use of the service is confined to the domestic use of the Customer and listings of a business nature are not furnished.
  2. In the residence of a practicing physician, dentist, veterinarian, surgeon, or other medical practitioner provided that such residence is not a part of an office building and provided the Customer has service charged for at business rates another location.

**SECTION 2 – BASIC SERVICES AND RATES (CONT'D.)**

**2.2 Charges Based on Duration of Use**

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 2.2.1** Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
  - 2.2.2** Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
  - 2.2.3** Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
  - 2.2.4** Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
  - 2.2.5** All times refer to local time.

**SECTION 2 – BASIC SERVICES AND RATES (CONT'D.)**

**2.3 Basic Local Exchange Service**

**2.3.1 General**

Basic Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number on, the Company switching network that enables the Customer to:

- a) receive calls from other stations on the public switched telephone network;
- b) access the Company's Local Calling Services and other Services as set forth in this Price List;
- c) access interexchange calling services of the Company and of other carriers;
- d) access (at no additional charge) to the Company's operators and business office for service related assistance;
- e) access toll-free telecommunications services such as 800 NPA; and access toll-free emergency services by dialing 0 or 9-1-1 (where available);
- f) access relay services for the hearing and/or speech impaired.

Basic Local Exchange Services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company's switch. Each Basic Local Exchange Service corresponds to one or more telephonic communications channels that can be used to place or receive one call at a time.

Individual line Residence and Business Basic Local Exchange Service is comprised of exchange access lines defined as follows:

Exchange Access Line - The service central office line equipment and all the Company plant facilities up to the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariffed use offering selected by the Customer.

**SECTION 5 - SERVICE CHARGES AND SURCHARGES**

**5.1 Public Telephone Surcharge**

In order to recover Company expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard Price List usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the “#” symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.
