2.5.3 Deposits

- A. To safeguard its interests, the Company may require a Customer to make an initiate-service deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills that the Company renders to the Customer. An increase to the deposit may be required if the Customer later defaults in its payment obligations. The deposit will not exceed an amount equal to:
1. Two months' rates and charges for a service or Company Facility which has a minimum payment period of one month; or
 2. The charges that would apply for the minimum payment period for a service of Company Facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable but in no event shall any deposit exceed two and one-half twelfths (2.5/12) of the annual estimated rates and charges for the service pursuant to Georgia Regulations (515-12-1-.05(4)).
- B. The Company may, at its option, return the deposit to the Customer or credit the deposit to the Customer's account at any time. When a Company Facility or service is discontinued, the amount of any deposit that has not already been returned to the Customer will be applied to the Customer's account and any credit balance remaining will be refunded to the Customer.
- C. The Company shall furnish to the Customer a receipt for any deposit that the Customer provides and, pursuant to Georgia Regulations cited in Section 2.5.4.A above such receipt shall state the name of the Customer, the Customer's billing address, the amount of the deposit and the interest rate. Deposits held will accrue interest at a rate of seven minimum (7%) annually pursuant to Georgia Regulations (515-12-1-.05(4)(b)) or at the minimum interest rate set by the Georgia Public Service Commission without deductions for any taxes on such deposits, whichever is higher. Interest will not accrue on any deposit after the date on which reasonable effort has been made to return such deposit to the Customer ninety (90) days after the service is discontinued pursuant to Georgia Regulation cited above.

Otherwise, the Company may deny service to the Customer. Any service or Company Facility discontinued or suspended for nonpayment shall be considered to be permanently disconnected if the discontinuance or suspension period exceeds ten (10) days due to the continued nonpayment of the full non-disputed amount due. In such instances of permanent disconnection, the Customer must satisfy its outstanding balance and any other charges incurred herein before new service may be established by the Customer and new service establishment rates and charges will apply in addition to the past-due amounts.

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability. Certain features may not be available with all classes of service. Transmission levels for calls forwarded or calls placed or received using optional calling features may not be acceptable for all uses in some cases.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Optional Calling Features, (Cont'd.)

3.4.2 Feature Descriptions, (Cont'd.)

- O. Remote Call Forwarding - Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call.

Remote Call Forwarding service is offered subject to availability of suitable facilities. Remote Call Forwarding service is not offered where the terminating station is a coin telephone. The Company will not provide identification of the originating telephone number to the RCF Customer. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, the normal grade end-to-end transmission is not guaranteed on such calls.

Each Remote Call Forwarding feature allows for forwarding one call at a given time. An additional path is necessary for each additional call to be forwarded simultaneously.

- P. Multiple Directory Number Distinctive Ringing: This feature allows an end user to determine the source of an incoming call from a distinctive ring. The end user may have up to two additional numbers assigned to a single line (i.e. Distinctive Ringing - First Number and Distinctive Ringing - Second Number). The designated primary number will receive a normal ringing pattern, other numbers will receive distinctive ringing patterns. The pattern is based on the telephone number that the calling party dials.
- Q. Call Return: allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will re-dial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated. The following types of calls cannot be reached using Repeat Dialing:
- Calls to 800 Service numbers
 - Calls to 900 Service numbers
 - Calls preceded by an interexchange carrier access code
 - International Direct Distance Dialed calls
 - Calls to Directory Assistance
 - Calls to 911
- S. Call Selector: Allows a Customer to assign a maximum of 15 telephone numbers to a special list. The Customer will hear a distinctive ring when calls are received from telephone numbers on that list.
- T. Preferred Call Forwarding: Permits the end-user to automatically forward to another number calls received from up to six end-user pre-selected telephone numbers programmed into the features screening list. The end-user controls when the feature is active, the forward-to number and can add or remove calling numbers from the feature's screening list.
- U. Call Block: Allows the end-user to automatically block incoming calls from up to six end-user pre-selected telephone numbers programmed into the feature's screening list. Callers whose numbers have been blocked will hear a recorded message stating that their call has been blocked. The end-user controls when the feature is active, and can add or remove calling numbers from the feature's screening list.
- V. Call Tracing: Allows the tracing of nuisance calls to a specified telephone number suspected of originating from a given local office. The tracing is activated upon entering the specified dial code. The originating telephone number, outgoing trunk number or terminating number, and the time and date are generated for every call to the specified telephone number can then be identified.

The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE.
 - X. Caller ID - Deluxe: Permits the end-user to view a Directory Name and Directory Number of the calling party on incoming telephone calls. Information is displayed on a specialized CPE not provided by the Company. The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE. In some situations, the calling party's city and state may be displayed rather than a Directory Name, depending on available call data.
 - Y. Anonymous Call Rejection: Permits the end-user to automatically reject incoming calls when the call originates from a telephone number which has blocked delivery of its calling number (see Calling Number Delivery Blocking).
